

**PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before re-use. Do not inhale vapors or spray mist. May cause skin irritation. Avoid contact with skin, eyes or clothing. Remove pets and cover fish bowls before spraying.

FIRST AID: IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7388.

NOTE TO PHYSICIAN: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water. Do not clean equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: COMBUSTIBLE. Contains petroleum distillate. Do not store or use near heat or open flame. Do not apply this product in or on electrical equipment due to the possibility of a shock hazard.

ESPC

EMULSIFIABLE SYNERGIZED PYRETHRIN CONCENTRATE

TO BE DILUTED WITH WATER AND USED IN INSTITUTIONS, DAIRIES, BAKERIES, CANNERIES, MEAT PACKING PLANTS, FLOUR MILLS, BOTTLING PLANTS, CREAMERIES, CHEESE FACTORIES, PEANUT MILLS, CANDY FACTORIES AND OTHER INDUSTRIAL ESTABLISHMENTS.

ACTIVE INGREDIENTS

Pyrethrin	1.20%
Piperonyl butoxide, technical	2.40%
1-octyl bicyclohexane dicarboximide	3.36%
INERT INGREDIENTS**	92.44%
TOTAL	100.00%

* Consists of 1.92% (Butylcarbitol), 6-propylpiperonyl ether and 0.48% inert compound.
** Contains petroleum distillate, xylene, or xylene range aromatic solvent.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See side panel for additional precautionary statements.

EPA REG. NO. 10088-21

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

TO KILL CARPET BEETLES: Dilute 1 part insecticide with 9 parts water. Spray liberally all infested areas, paying particular attention to cracks, crevices, and other hiding places. Spray liberally the underside of infested carpets. Repeat as needed.

TO KILL FLIES, MOSQUITOES AND GNATS: Dilute one part insecticide with 19 parts water and spray vigorously in all parts of room, using about 1 ounce for each 1000 cubic feet of space. Leave room closed for 15 minutes. Sweep up and destroy fallen insects. Repeat as needed.

TO KILL FLEAS (Infesting Premises): Dilute 1 part insecticide with 15 parts of water, mop up and destroy animals, bedding and spray sleeping quarters liberally, forcing the spray into all cracks in floor and about room. Repeat when necessary.

TO KILL ROACHES & WATERBUGS: Dilute 1 part insecticide with 9 parts of water and spray to point of run-off all cracks, crevices, underneath sinks, behind pipes, around base of all machines, pay particular attention to dark areas in which roaches might hide or nest. Contact as many insects as possible while spraying. Repeat as necessary.

TO KILL THE ACCESSIBLE STAGES OF GRANARY INSECTS SUCH AS: WEEVILS, FLOUR BEETLES, MEAL MOTH LARVAE & ADULTS, CADLLES & SAW-TOOTHED GRAIN BEETLES: Dilute 1 part insecticide with 9 parts of water. To control the crawling or immature forms, apply to point of run-off to all areas infested by these insects. Pay particular attention to cracks and crevices in floors, walls and ceilings. Spray thoroughly around and into floors drains, conveyors and other areas where granary insects may be found. (For flying moths, treat as for flies, mosquitoes and gnats. See directions above.) Do not apply spray onto surfaces that may come in contact with food. When used in an enclosed area, do not remain in area. VENTILATE AREA WHEN TREATMENT IS COMPLETED.

FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS: When applying a space treatment in food handling areas, the food handling operation should be shut down. Foods should be removed or covered during treatment. In food processing areas, all utensils, shelving, etc. where food will be handled should be covered or removed before treatment, or thoroughly washed with an effective cleaning compound followed by a potable water rinse prior to use. Careful crack and crevice application for inspection purposes is permissible at all times except in USDA Federally inspected meat and poultry plants.

IN AUTHORIZED USDA FEDERALLY INSPECTED MEAT AND POULTRY PLANTS: Apply only when processing area is not in operation. Foods should be removed or covered during treatment. After a space treatment, all food processing surfaces and equipment should be thoroughly washed with an effective cleaning compound followed by a potable water rinse before using. To prevent food product contamination, the treated area should be free of odor before the food product is placed in the area.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep container tightly closed when not in use. If container is damaged or leaking, contain spill. Soak up spilled material with sand or other inert absorbent, and place into a closed, labeled container for proper disposal.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
