

This non-ionic polymer flocculent is designed to settle suspended solids and all particulate matter from swimming pool water. When used in a program of complete pool care, it will help keep the water sparkling clear and inviting. Solids and debris will be settled to the pool bottom for easy removal by vacuuming. The use of this product also enhances efficiency of water filters.

DIRECTIONS

If the pool is cloudy from airborne dust or high water hardness, use up to 32 ounces of this flocculent per 10,000 gallons of pool water. Allow pool to remain undisturbed for at least one hour, then vacuum all debris that has settled.

For normal maintenance use, add 8 ounces of this flocculent per 10,000 gallons of pool water. Weekly treatment are most effective when made during times when the pool is not in use.

POOL CLARIFIER

PRECIPITATES SUSPENDED SOLIDS FOR SPARKLING CLEAN AND CLEAR SWIMMING POOL WATER

CAUTION

Harmful if swallowed.

See side panel for additional precautions.

KEEP OUT OF REACH OF CHILDREN

Sold By:

CAUTION

Harmful if swallowed. May irritate eyes.

FIRST AID

If Swallowed: Do not induce vomiting. Give 1-2 glasses of water. Call a physician immediately.

If In Eyes: Flush eyes and under eyelids with cool water for at least 15 minutes. If discomfort persists, see a physician.

If On Skin: Wash with soap and water. If irritation is persistent, contact a physician.

If Inhaled: Remove person to fresh air. If irritation persists, obtain medical attention.

KEEP OUT OF REACH OF CHILDREN

See M.S.D.S. for complete safety information

Handling & Storage: Keep container tightly closed when not in use. Do not store in unmarked containers. Store container in cool, dry place. Do not cut or weld on or near this container even when empty. Store away from heat or open flame.
