

This highly concentrated foaming cleaner is designed for use on ovens, grills, deep fryers, smokehouses, meat curing equipment, food processing equipment. Its powerful surfactants and caustic cleaners soften and lift tough deposits for easy removal.

DIRECTIONS

This foaming cleaner may be used as is or diluted with up to 10 parts of hot water. When applied through appropriate foam generating equipment, it will produce a thick, clinging foam. Adjust the dilution rate according to the cleaning requirements and the method of application being used. Apply the solution or foam and allow to penetrate and soften deposits. Scrape or flush away deposits, then rinse thoroughly with clean water.
