MINERAL SOLVENT WATER CONDITIONER

ELIMINATES WATER SPOTS AND HAZE INCREASES EFFECTIVENESS OF DETERGENTS AND SANITIZERS

Richco® MINERAL SOLVENT water conditioner and softener is designed for use in all areas with hard water problems. It removes calcium and magnesium hardness from water, so detergents and sanitizers work more effectively – and also eliminates water spots and mineral haze. Regular use of **Richco® MINERAL SOLVENT** makes glasses perfectly clean and crystal clear, for beer with rich aroma, superb taste, and creamy head that holds to bottom of the glass.

DIRECTIONS FOR USE

To eliminate hard water deposits and water spotting on glassware, add 3/4 ounce **Richco® MINERAL SOLVENT** to the first and last tanks, before adding the detergent and sanitizer. Use with every water change to assure sparkling clean, clear, spot-free glasses with every wash.

Richco® MINERAL SOLVENT is formulated for use with **DOUBLE DUTY, ELECTRO SHINE, NO SUDS** and **CRYSTAL CLEAR** detergents in the first tank, and **SC SANITIZING RINSE** or **BOCK SANITIZING RINSE** in the last tank.

CAUTION

Harmful if swallowed. May irritate eyes and mucous membranes. Avoid contact with eyes and mucous membranes. If splashed in eyes, flush eyes and under eyelids with plenty of cool water. If irritation persists, obtain medical attention. If swallowed, drink several glasses of water and induce vomiting. Call a physician immediately.
