BEER LINE CLEANER FOR BEER AND WINE LINES, TAPS AND FAUCETS

**PROVEN EFFECTIVE IN LONG AND SHORT LINES
AND IN WARM OR COLD WATER**

RINSES CLEAN INSTANTLY WITH COLD WATER OR BEER

To serve the best tasting beer and wine, clean dispensing lines are absolutely essential. **Richco® BEER LINE CLEANER** is a potent, non-foaming detergent for cleaning beer and wine lines. It quickly flushes out beverage residue and other deposits, to leave the lines perfectly clean - and maintain the natural aroma and true flavor beverages in dispensing systems. Regular cleaning of beer lines and faucets assures the beer tastes and smells as appetizing and fresh as the day it was brewed.

DIRECTIONS FOR USE

The amount of cleaning solution required is determined by the length of beer or wine lines. For short lines, 1 quart is sufficient. Long lines require 2 to 3 quarts.

Use 1/2 to 1 ounce of **Richco® BEER LINE CLEANER** per quart of warm or cold water. Pump cleaning solution through the lines and rinse thoroughly with cold water or beer.

To clean faucets, disassemble and soap in cleaning solution, then rinse faucet parts with clean water before reassembling.

WARNING: CORROSIVE

Harmful or fatal if swallowed. Contains potassium hydroxide. May cause burns to the eyes, skin and mucous membranes. May cause permanent eye damage.

FIRST AID

If Swallowed: Contact a physician or poison control center immediately. Give person several glasses of water. DO NOT induce vomiting.

If In Eyes: Flush eyes with water for at least 15 minutes. If irritation is persistent, contact a physician.

If On Skin: Wash with soap and water. If irritation is persistent, contact a physician.

See M.S.D.S. for complete safety information.

KEEP OUT OF REACH OF CHILDREN

Handling & Storage: Keep container tightly closed when not in use. Keep away from acidic materials. Do not store in unmarked containers. Rinse empty container before disposal.
