This multi-purpose cleaner and degreaser contains 15% butyl combined with special detergents and builders for superior performance in hot or cold water. It instantly dissolves heavy dirt, grime, oil and grease deposits.

DIRECTIONS:

Dilute in warm or hot water for best performance. Spray, brush or mop on and allow the cleaner to penetrate and loosen deposits. Flush away with a clean water rinse. Remove difficult or hard deposits by allowing the detergent solution to saturate for approximately five minutes, rub gently with steel wool and rinse.
